

**MEET THE  
ESR5000  
DUST COVER**

**KEEP YOUR  
INSTRUMENT  
CLEAN**

**ENSURE  
RELIABLE  
RESULTS**

## PRODUCT OVERVIEW

A purpose-built cover for the ESR5000 that:

- Fully protects the open chamber when not in use
- Helps prevent contamination inside the cavity and resonator tube
- Helps maintain measurement performance and system integrity

## KEY ADVANTAGES

**Superior  
Contamination  
Control**

**High Durability**

**Highly Visible  
Design**

## AVAILABLE CONFIGURATIONS

### ESR5000 Dust Cover *Standard Version*

Designed for general ESR5000 protection when the system is not in use

### ESR5000 Dust Cover *compatible with an installed Barcode Reader*

Designed to fit around the Sample holder and E4000 Barcode Reader Accessory

## WHY UPGRADE FROM THE STANDARD CAP?

- Standard cap is often mistaken as temporary and discarded
- Does not fully seal or protect the chamber
- Leaves system vulnerable to environmental contamination
